

Verdeterre Contracting, a family owned full-service site earthwork and site utility company established in 1980, is currently seeking a Site Crew Foreman. The successful candidate will be counted on as a key member of our growing leadership team.

As Site Crew Foreman, the candidate will be responsible to manage set-up, daily activities and lead his site team while providing the outstanding client satisfaction and attention to detail for which Verdeterre is known.

The ideal candidate will:

- Have a passion for setting and achieving objectives while motivating others to successfully meet targets,
- Have the ability to analyze all aspects of a situation, identify and evaluate resources and problem-solve effectively,
- Be able to readily respond to and integrate change as necessary maintaining overall direction,
- Be accountable for their team and for using resources efficiently.

Primary Responsibilities:

- Set-up survey grade control (initial site GPS setup and control point verification), create site action and logistics plan, review blueprints and schedule startup,
- Operate heavy equipment, manage tools and supplies, manage schedules and sub-contractors,
- Schedule the crew and assign tasks in a way that develops the team,
- Resolve any site issues, interact with client superintendent, and act as Verdeterre ambassador,
- Interact with and take direction from Verdeterre project managers,
- Embrace Verdeterre's core values.

Qualified Candidates Must Demonstrate:

- Previous construction foreman experience required
- Previous experience in heavy civil projects preferred

Verdeterre Contracting is an equal opportunity employer
